Experience

Product Engineering at Crowdboost

February 2015 - July 2015 (6 months)

Front-end Engineering at Pixelapse

August 2014 - January 2015 (6 months)

Pixelapse is a SaaS startup incubated by Y-Combinator and StartX. It is a version control and collaboration tool for creatives - TechCrunch succinctly described it as "Github + Dropbox for designers". The company is a proponent of open design, and encourages designers to open-source their work through the platform. It was eventually acquired by Dropbox.

- Collaborated with team on UI/UX using Sketch
- Created Color and Ipsum for Pixelapse Toolbelt
- Developed reusable UI elements and attached them to their Rails controller
- Wrote unit-tests for Rails (RSpec, Capybara and Selenium)
- Learned to test for and handle cross-browser compatibility issues
- Curated designers to be invited into Pixelapse open-design community, growing the community and leading it to be featured on Fast Company

PADI Divemaster Trainee at Bali Scuba

July 2013 - July 2013 (1 month)

Bali Scuba is a 5 star PADI Dive Centre based in Sanur, Bali and it is one of the most established dive operators on the island. Despite being in a major tourist destination, it retains a loyal team of instructors and support staff who have been with them for years, ensuring that their trainees have a wealth of experience to tap upon.

- Directly involved in front-end operations of dive center
- Created positive customer experiences for 10+ new divers
- Gained insight to a successful business in a matured and saturated industry

Dedicated Crew Chief, F-16 Falcon at Singapore Armed Forces

April 2009 - April 2011 (2 years 1 month)

- Flight Line Crew of 140 Squadron, Republic of Singapore Air Force
- Responsible for the general maintenance of a F-16 Fighting Falcon
- Conducted visual inspection and generation of mission-capable aircraft for flight
- Oversaw a team of weapons-load crew and specialists around assigned aircraft
- Part of the F-16 aerial display team for Singapore's National Day Parade in 2010

Education

National University of Singapore

Bachelor's Degree, Computer Science, 2011 - 2016

Anglo-Chinese Junior College

Honors and Awards

Honorable Mention

International Olympiad for Astronomy and Astrophysics

December 2007

- Member in Singapore's pioneering team of 4 students in an Astrophysics Olympiad • Tested extensively on observational astronomy, cosmology, orbital mechanics, stellar astronomy, simple relativity and quantum mechanics phenomena
